

SAVE CHRISTIAN RADIO COMMENTS

To Whom It May Concern:

I am concerned about the recent considerations of changes to Christian Radio.

There would be significant impact on the ability for these radio stations to minister to their listeners and to their communities. Specifically, I am concerned about

1. One board overseeing all broadcasters in a specific geographic area. Appointed individuals may have biases against certain kinds of programming, in particular the Christian mission of those Christian based radio stations.
2. The expenses to maintain affected stations in additional staff could force our smaller Christian radio stations off the air.
3. The rule that would give priority to lower power FM stations rather than existing translator stations. This would mean that many of K-Love's current translators would no longer be able to carry this programming.

KLOVE is very important to me personally. I have had some recent personal changes and the positive message that is relayed by K-Love has been critical in my recovery from these changes. Allowing Christian Radio to freely share the word with their listeners has had nothing but positive impact to those that listen as well as the communities that they serve.

I sincerely hope that you listen to the opinions of the listeners of K-Love. Please do make these changes.
